

# GO BIG OR GO HOME

Large text grabs attention immediately and sets the tone for your design.

## Medium text bridges the message

It creates a balance between bold statements and fine details, maintaining a smooth visual hierarchy.

## tiny text whispers important notes in the background

Mixing sizes creates depth and guides the viewer's eye naturally through the design.

---

### **BIG TEXT**

Grabs attention.

### **Medium Text**

Helps separate sections and makes things easy to follow.

### **Small Text**

Provides extra details without taking the focus.

### **Tiny Text**

Adds small, subtle info.
